Source: Statistics Canada, Table 17-10-0142-01 and 17-10-0139-01

Note: Population estimates are as of July 1st. All estimates based on the 2021 Census adjusted for net undercoverage. Since all components of population change aren't available when the estimates are produced, 2024 estimates are preliminary, 2023/22 are updated and 2020/21 are final estimates. This release cycle balances the need for timeliness and accuracy of the estimates.
