

CRD Board Highlights: August 12, 2020

CRD Board Highlights provides a brief summary of items from each monthly regional Board meeting. The summary is not inclusive of all agenda items. Please refer to the [CRD website](#) for the full agenda, minutes and webcast.

Wastewater Treatment Project Q1 2020 Quarterly Report

The Wastewater Treatment Project Q1 2020 Quarterly Report was received by the Board for information from the Core Area Liquid Waste Management Committee. This comprehensive quarterly report covers the reporting period of January through March 2020 and outlines the progress made on the Wastewater Treatment Project over this time.

Diversity and Inclusion Statement – Response to Notice of Motion

The Board approved a diversity and inclusivity statement to be included on the agenda cover for each of the CRHC, CRHD and CRD Boards and each of the standing committees of those Boards. The statement reads: The Capital Regional District strives to be a place where inclusion is paramount and all people are treated with dignity. We pledge to make our meetings a place where all feel welcome and respected.

Solid Waste Management Plan – Traffic Impact Analysis

The Board approved a motion directing staff to undertake additional work to better

understand the potential impacts of moving the commercial truck entrance at Hartland Landfill and report back to the Environmental Services Committee with the results. A current season traffic study will also be conducted as an update to the original report. An amended motion that staff plan for additional consultation for residents of Willis Point, Highlands and the Hartland Area was tabled until the September 9 Board meeting.

Regional Greenhouse Gas Inventory Study

The Board received the results of the Regional Greenhouse Gas Inventory Study for information. The report will be referred to all CRD municipalities, electoral areas and First Nations with the per capita information to inform future GHG reduction planning efforts and feedback from the referrals will inform future regional action. The results of the report indicate an approximate 1% decrease in regional emissions from 2007 to 2018 and the CRD will utilize this information for climate action planning activities.
