AGENDA

1. TERRITORIAL ACKNOWLEDGEMENT

2. APPROVAL OF AGENDA

3. ADOPTION OF MINUTES

Recommendations:

1. That the minutes of the February 1, 2022 meeting be adopted..... 3
2. That the minutes of the February 14, 2022 special meeting be adopted 6

4. CHAIR'S REMARKS

5. PRESENTATIONS/DELEGATIONS

The public are welcome to attend Commission meetings in-person.

Delegations will have the option to participate electronically. Please complete the [online](#) application for "Addressing the Board" on our website and staff will respond with details.

Alternatively, you may email your comments on an agenda item to the Juan de Fuca Water Distribution Commission at ivsadministration@crd.bc.ca.

Requests must be received no later than 4:30 p.m. two calendar days prior to the meeting.

6. GENERAL MANAGER'S REPORT

7. COMMISSION BUSINESS

7.1. Juan de Fuca System Expansion – Skirt Mountain – Tender Recommendation ...7

Recommendation: That the Juan de Fuca Water Distribution Commission approves the award of Contract 2021-723, Juan de Fuca System Expansion – Skirt Mountain, to Coast Utility in the amount of \$6,673,803 plus GST.

*To ensure quorum, advise **Denise Dionne, 250-360-3087**, if you cannot attend.*

**Juan de Fuca Water Distribution Commission
Agenda – March 1, 2022**

7.2. Goldstream Avenue Water Main Project Update10

***Recommendation:** That the Juan de Fuca Water Distribution Commission receives this report for information.*

7.3. Summary of Recommendations from Other Water Commissions13

***Recommendation:** That the Juan de Fuca Water Distribution Commission receive the Summary of Recommendations from Other Water Commissions for information.*

7.4. Water Watch Report16

***Recommendation:** That the Juan de Fuca Water Distribution Commission receive the Water Watch Report for information.*

8. NOTICE(S) OF MOTION

9. NEW BUSINESS

10. ADJOURNMENT

Next Meeting: Tuesday, April 5, 2022

MINUTES OF A MEETING OF THE Juan de Fuca Water Distribution Commission, held Tuesday, February 1, 2022 at 12 p.m., Goldstream Meeting Room at 479 Island Highway, Victoria, BC

PRESENT: Commissioners: G. Logan (Chair); J. Rogers (EP) (V. Chair); G. Baird (EP); M. Hicks (EP); L. Szpak; R. Wade (EP)

Staff: T. Robbins, General Manager; I. Jesney, Senior Manager, Infrastructure Engineering; S. Irg, Senior Manager, Water Infrastructure Operations; J. Marr, Manager, Water Distribution Engineering and Planning; K. Vincent (EP), Senior Financial Advisor; L. Westinghouse (EP), Senior Financial Advisor; T. Duthie, Manager, Administration Services; D. Dionne, Administrative Coordinator (Recorder)

REGRETS: K. Kahakauwila; E. Logins

EP = Electronic Participation

The meeting was called to order at 12 pm.

1. TERRITORIAL ACKNOWLEDGEMENT

The Chair provided a Territorial Acknowledgement.

The Chair conducted a roll call.

2. APPROVAL OF AGENDA

MOVED by Commissioner Szpak, **SECONDED** by Commissioner Wade,
That the agenda be approved as circulated.

CARRIED

3. ADOPTION OF MINUTES

MOVED by Commissioner Rogers, **SECONDED** by Commissioner Baird,
That the minutes of the January 4, 2022 Juan de Fuca Water Distribution Commission meeting be adopted.

CARRIED

4. CHAIR'S REMARKS

The Chair made no remarks.

5. PRESENTATIONS/DELEGATIONS

There were no presentations or delegations.

6. GENERAL MANAGER'S REPORT

There was no report.

7. COMMISSION BUSINESS

7.1. Grant Application for Anderson Cove (East Sooke) Water Service Extension

I. Jesney presented the report.

Discussion ensued and the Commission spoke in favour of the item. Staff explained that the previous application may have been unsuccessful due a number of factors such as the number of applications submitted or Provincial priorities at the time.

MOVED by Commissioner Hicks, **SECONDED** by Commissioner Wade,
The Juan de Fuca Water Distribution Commission recommends to the Electoral Areas Committee and the Capital Regional District Board that:
Staff be directed to prepare and submit an application for an Investing in Canada Infrastructure Program - British Columbia - Green Infrastructure - Environmental Quality grant for the water service extension to the Anderson Cove area of the Juan de Fuca Water Distribution service area.

CARRIED

7.2. Summary of Recommendations from Other Water Commissions

There was no discussion.

MOVED by Commissioner Szpak, **SECONDED** by Commissioner Rogers,
That the Summary of Recommendations from other Water Commissions be received for information.

CARRIED

7.3. Water Watch Report

There was no discussion.

MOVED by Commissioner Rogers, **SECONDED** by Commissioner Szpak,
That the January 24, 2022 Water Watch Report be received for information.

CARRIED

8. NOTICE(S) OF MOTION

There were no notices of motion.

9. NEW BUSINESS

There was no new business.

10. MOTION TO CLOSE THE MEETING

MOVED by Commissioner Szpak, **SECONDED** by Commissioner Baird,
That the meeting be closed for Intergovernmental Relations under Section 90 (2)(b) of the Community Charter, Part 4, Division 3.

CARRIED

The Commission moved into closed session at 12:08 pm.

11. RISE AND REPORT

The Commission rose from its closed session at 12:56 pm without report.

12. ADJOURNMENT

MOVED by Commissioner Kahakauwila, **SECONDED** by Commissioner Szpak,
That the February 1, 2022 meeting be adjourned at 12:56 pm.

CARRIED

CHAIR

SECRETARY

**MINUTES OF A SPECIAL MEETING OF THE Juan de Fuca Water Distribution Commission,
held Monday, February 14, 2022 at 9:30 am, Goldstream Meeting Room, 479 Island
Highway, Victoria, BC**

PRESENT: Commissioners: G. Logan (Chair); J. Rogers (EP) (V. Chair); G. Baird (EP); M. Hicks (EP); K. Kahakauwila (EP); E. Logins (EP); L. Szpak; R. Wade (EP)
Staff: T. Robbins, General Manager; I. Jesney, Senior Manager, Infrastructure Engineering; S. Irg, Senior Manager, Water Infrastructure Operations; J. Marr, Manager, Water Distribution Engineering and Planning; K. Vincent (EP), Senior Financial Advisor; L. Westinghouse (EP), Senior Financial Advisor; D. Dionne, Administrative Coordinator (Recorder)

EP = Electronic Participation

The meeting was called to order at 9:30 am.

1. TERRITORIAL ACKNOWLEDGEMENT

The Chair provided the Territorial Acknowledgement.

2. APPROVAL OF AGENDA

MOVED by Commissioner Szpak, **SECONDED** by Commissioner Rogers,
That the special meeting agenda be approved.

CARRIED

3. MOTION TO CLOSE THE MEETING

The Commission moved into closed session at 9:32 am.

MOVED by Commissioner Rogers, **SECONDED** by Commissioner Szpak,
That the meeting be closed for Intergovernmental Relations under Section 90 (2)(b) of the
Community Charter, Part 4, Division 3.

CARRIED

4. RISE AND REPORT

The Commission rose from its closed session at 10:28 am without report.

MOVED by Commissioner Kahakauwila, **SECONDED** by Commissioner Szpak,
That the February 14, 2022 meeting be adjourned at 10:28 am.

CARRIED

CHAIR

SECRETARY

**REPORT TO JUAN DE FUCA WATER DISTRIBUTION COMMISSION
MEETING OF TUESDAY, MARCH 1, 2022**

SUBJECT **Juan de Fuca System Expansion - Skirt Mountain - Tender Award Recommendation**

ISSUE SUMMARY

To seek the Juan de Fuca Water Distribution Commission's (Commission) approval to award a contract for the Juan de Fuca System Expansion – Skirt Mountain project (Tank 4, McCallum Pump Station and Pump Station 7).

BACKGROUND

The Skirt Mountain project is part of the Juan De Fuca (JDF) Water Distribution System capital plan (Project 23-01). The location of the project is shown in Appendix A and the scope of the project includes:

- Tank 4 – Bolted steel tank with a volume of 2,750 cubic metres
- McCallum Pump Station
- Pump Station 7
- Supply main to existing Skirt Reservoir – completed on budget by Capital Regional District (CRD) staff in 2021

The project budget was amended by the Commission on December 7, 2021 and now totals \$9.11 million for design and construction and is entirely funded by the JDF Development Cost Charge (DCC) program. A breakdown of budget components is as follows:

Project Name & Budget No.	Engineering Budget	Water Main Construction Budget	Tank 4, McCallum Pump Station, Pump Station 7 Construction Budget	Total Budget
Skirt Mountain Improvements No. 23-01	\$570,000	\$431,000 (complete)	\$8,109,000	\$9,110,000

Three tenders for Tank 4, McCallum Pump Station and Pump Station 7 were received on February 3, 2022 as follows:

1. Coast Utility - \$6,673,803.00 + GST
2. Industria - \$7,288,728.82 + GST
3. CanWest Mechanical - \$8,175,388.90 + GST

The project consultant, Stantec, reviewed all three tenders and deemed the low tenderer, Coast Utility, to be qualified to deliver the project. The tendered amount is within the allocated construction budget of \$8,109,000.

Juan de Fuca Water Distribution Commission – March 1, 2022**Juan de Fuca System Expansion - Skirt Mountain - Tender Award Recommendation 2**

As the delegated signing authority limit for the Chief Administrative Officer is \$5 million, the Commission's approval to award the contract is required.

ALTERNATIVES*Alternative 1*

That the Juan de Fuca Water Distribution Commission approves the award of Contract 2021-723, Juan de Fuca System Expansion – Skirt Mountain, to Coast Utility in the amount of \$6,673,803 plus GST.

Alternative 2

That the Juan de Fuca Water Distribution Commission not approve the award of Contract 2021-723, Juan de Fuca System Expansion – Skirt Mountain, to Coast Utility and direct staff to cancel or retender the project.

CONCLUSION

The Tender is ready to be awarded to Coast Utility in the amount of \$6,673,803 plus GST. The Tender has been reviewed and it complies with the tender requirements and Coast Utility is deemed qualified to undertake the project. There is sufficient funding available through the JDF Development Cost Charge program and the tendered amount is within the allocated budget. The delegated signing authority limit for the Chief Administrative Officer is \$5 million, therefore approval of the award of contract by the Juan de Fuca Water Distribution Commission is required.

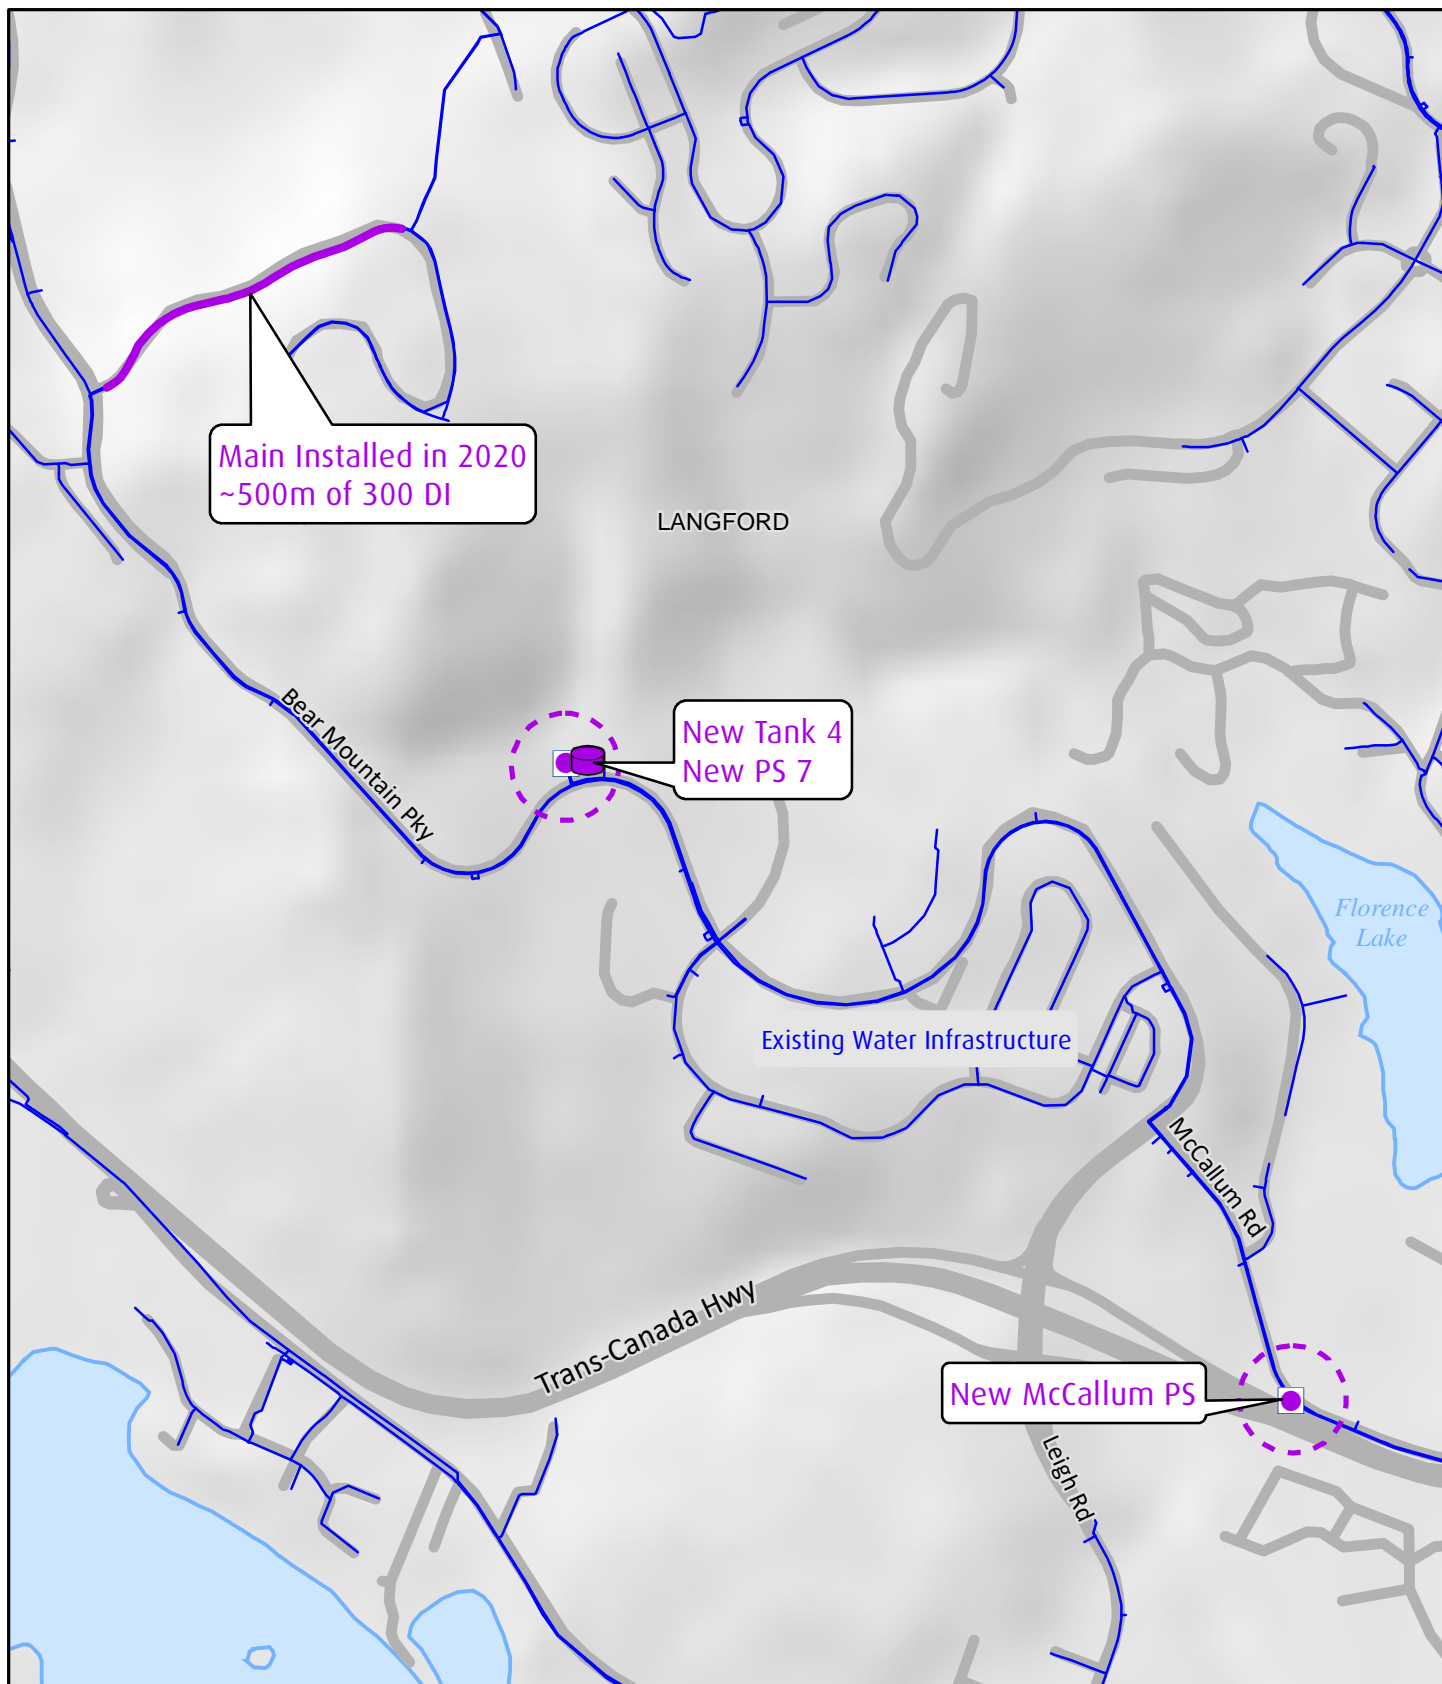

RECOMMENDATION

That the Juan de Fuca Water Distribution Commission approves the award of Contract 2021-723, Juan de Fuca System Expansion – Skirt Mountain, to Coast Utility in the amount of \$6,673,803 plus GST.

**REPORT TO JUAN DE FUCA WATER DISTRIBUTION COMMISSION
MEETING OF TUESDAY, MARCH 1, 2022**

SUBJECT **Goldstream Avenue Water Main Project Update**

ISSUE SUMMARY

To provide the Juan de Fuca Water Distribution Commission (Commission) with an update on the Goldstream Avenue Water Main Project.

BACKGROUND

This project is to replace aging asbestos cement (AC) water main along Goldstream Avenue from Leigh Road to Veterans Memorial Parkway (appendix A for map). The main is also being upsized to account for hydraulic capacity due to the future relocation of the Regional Water System's Transmission Main #4. The project includes the following components:

- The replacement of 1,600 metres of 200 millimetre (mm) diameter AC water main with 400 mm diameter ductile iron (DI) water main,
- The replacement of a total 200 metres of 200 mm and 150 mm diameter AC water main along side streets between Leigh Road and Veterans Memorial Parkway with 300 mm diameter DI water main.

On December 7, 2021, the Commission recommended to the Capital Regional District Board, that the 2022 Juan de Fuca Water Distribution Service Capital Budget and Five Year Capital Budget be amended to increase the Goldstream Avenue Water Main Project from \$5 million dollars to \$5.8 million dollars to account for anticipated construction cost escalation.

The Goldstream Avenue Water Main Project tender closed on January 20, 2022 with the Capital Regional District (CRD) receiving three qualified bids. All bids received were over budget with the lowest bid, at approximately \$7 million, being approximately \$1.2 million dollars over budget.

CRD staff, with advice from the project's engineering consultant Parsons, will not be awarding a contract due to the tender prices, which exceed available budget and do not represent good value in the CRD's opinion. The tender will be cancelled. Cost drivers contributing to the high cost include: hours of work constraints; contractor labour shortages; material cost increases and permanent and temporary paving requirements.

Although the Goldstream Avenue Water Main has been identified as a high priority project under the AC Replacement Program, the CRD is planning on rescheduling the work for 2023 and will be investigating alternative options for construction. Some of these options may include utilizing night work and/or CRD forces and material suppliers to complete the project. The use of CRD forces may save costs related to labour, insurance and profit.

Staff will be following up with a report regarding a capital plan budget amendment to reflect the revised schedule.

Juan de Fuca Water Distribution Commission – March 1, 2022
Goldstream Avenue Water Main Project Update

2

CONCLUSION

The Goldstream Avenue Water Main Project was tendered and the bids received are significantly over budget. CRD staff, with advice from the project's engineering consultant Parsons, will not be awarding a contract due to the tender prices, which exceed available budget and do not represent good value in the CRD's opinion. Although the Goldstream Avenue Water Main has been identified as a high priority project under the AC Replacement Program, the CRD is planning on rescheduling the work for 2023 and will be investigating alternative options for construction.

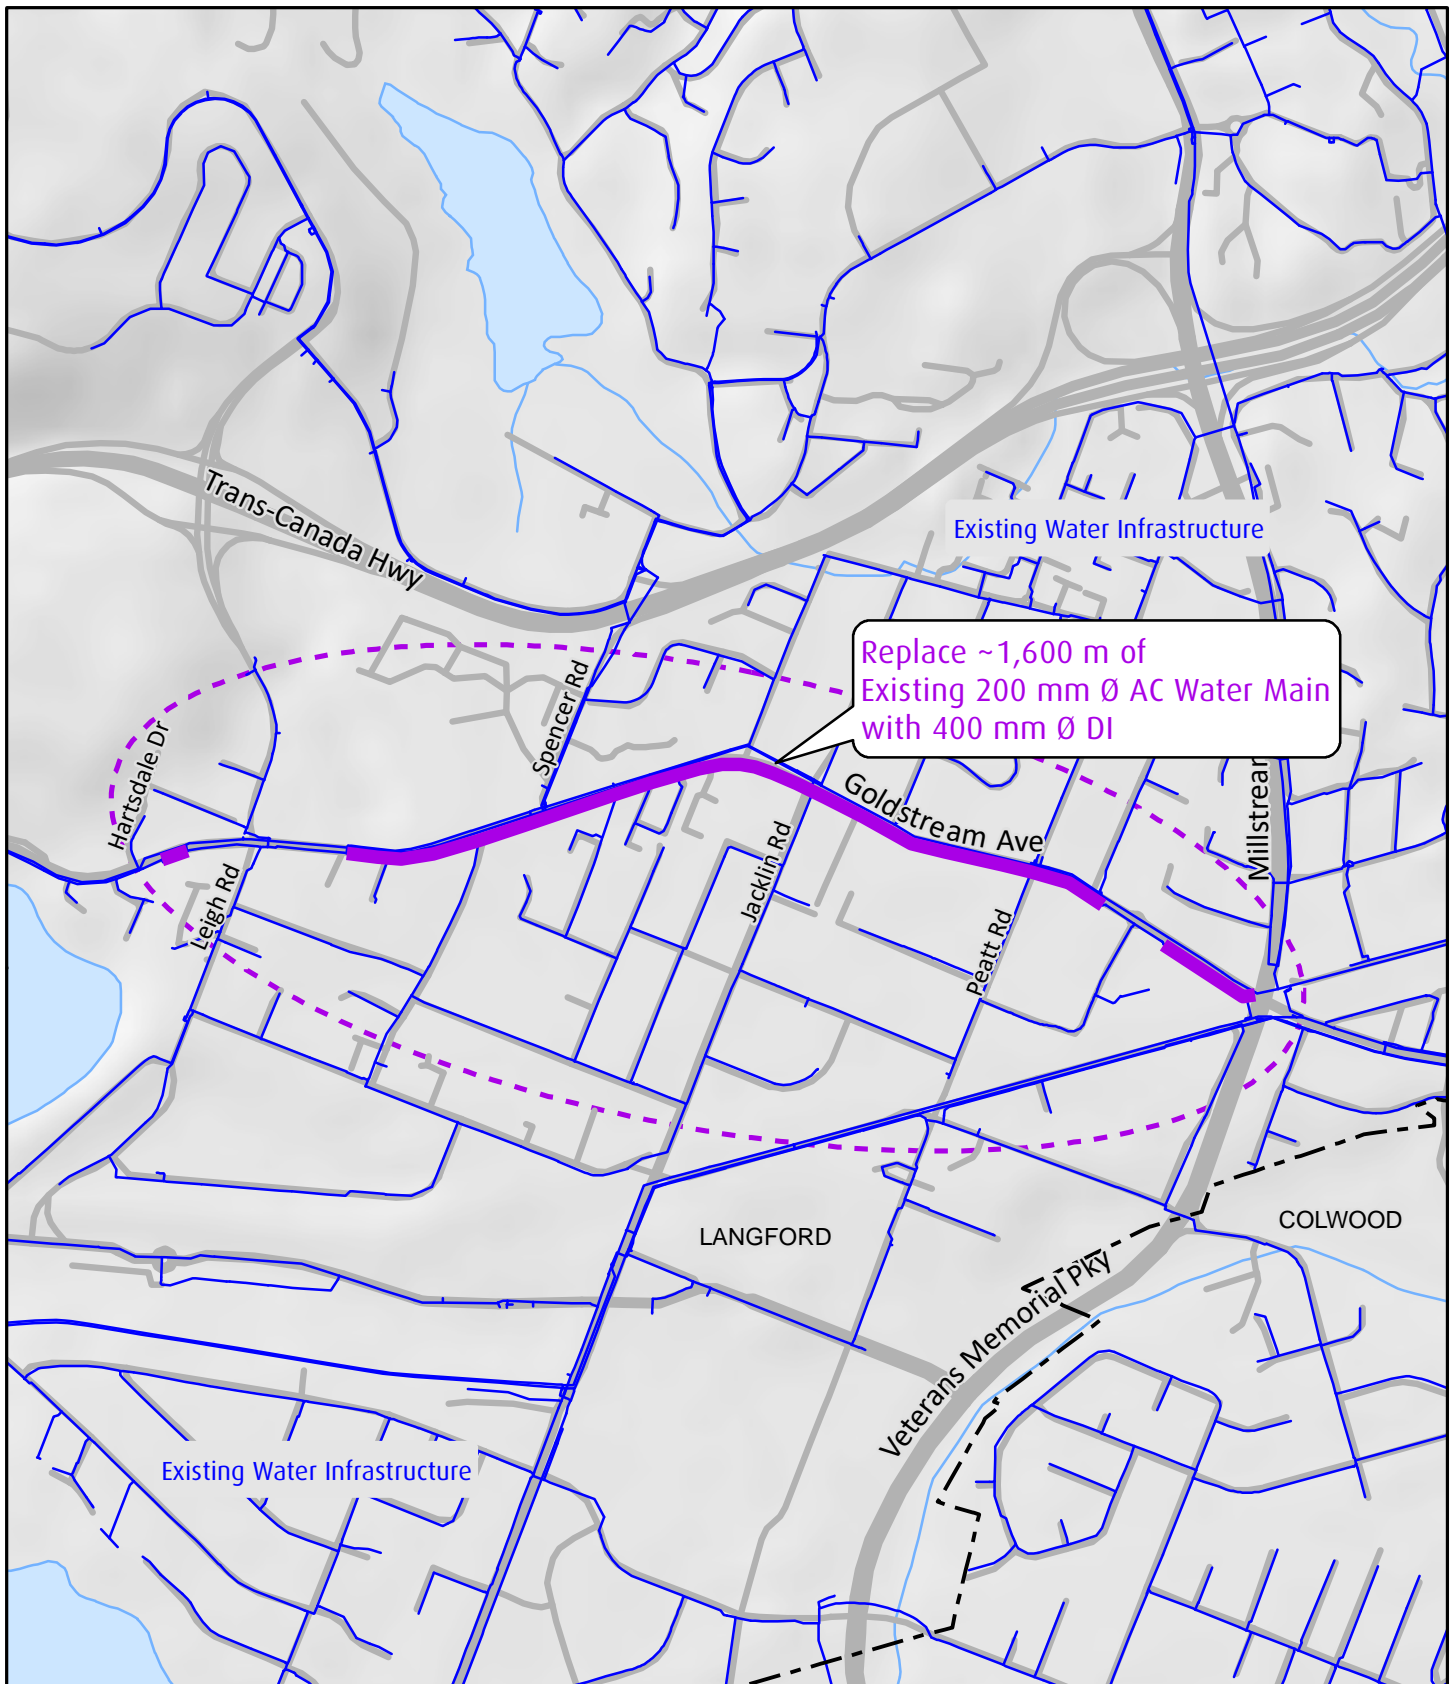

RECOMMENDATION

That the Juan de Fuca Water Distribution Commission receives this report for information.

2021 / 2022

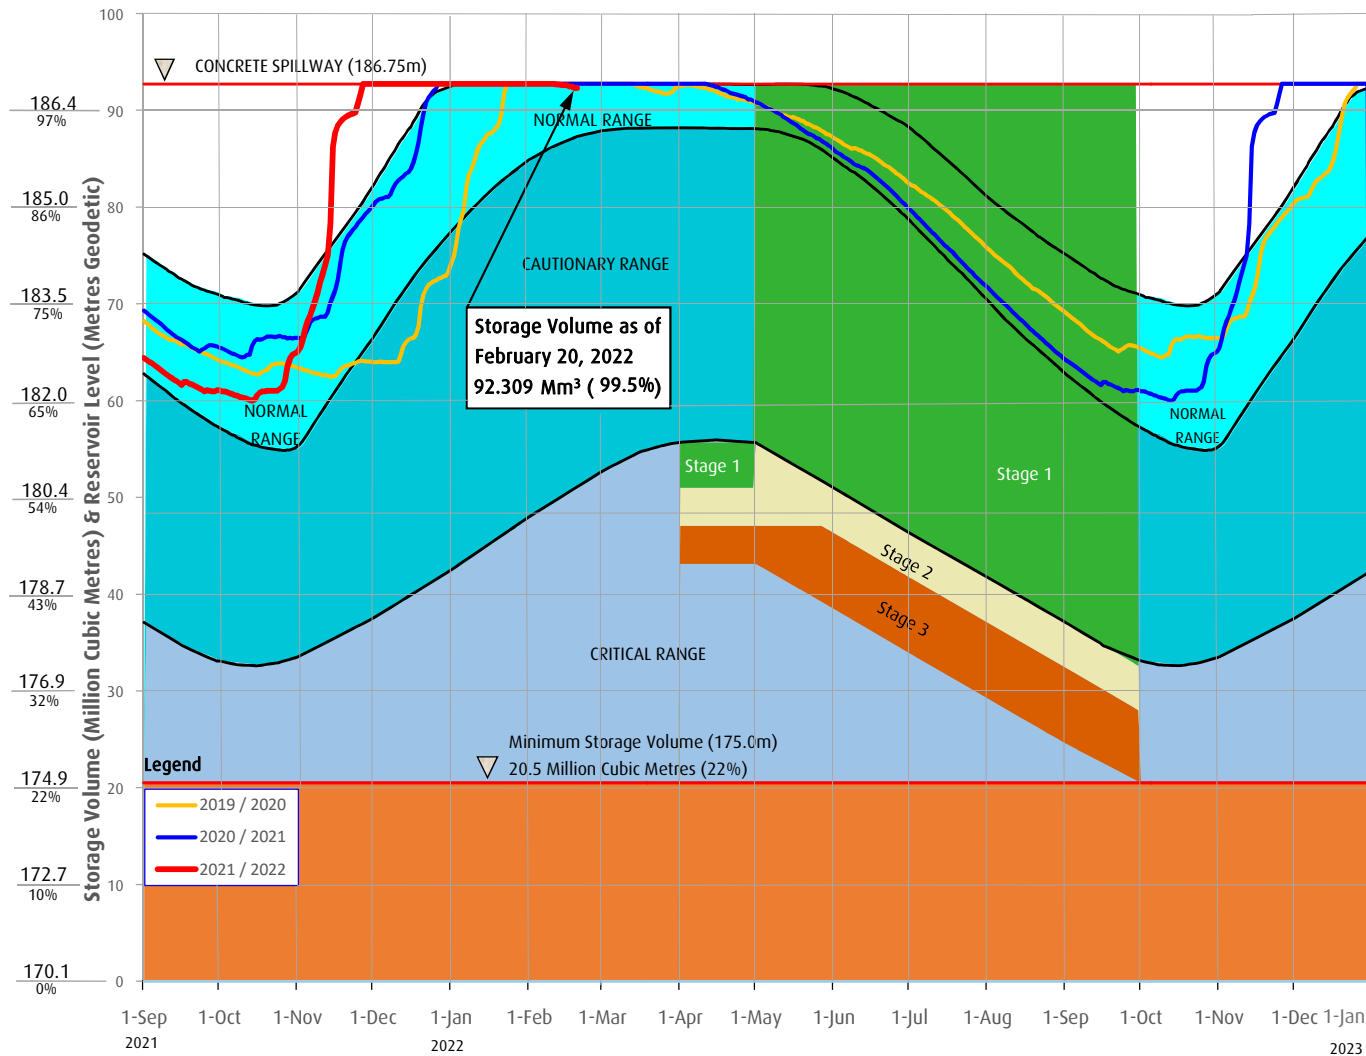

Useable Reservoir Volumes in Storage for February 20, 2022

Sooke Lake Reservoir Storage Level

Water Supply Management Plan

FAQs

How are water restriction stages determined?

Several factors are considered when determining water use restriction stages, including,

1. Time of year and typical seasonal water demand trends;
2. Precipitation and temperature conditions and forecasts;
3. Storage levels and storage volumes of water reservoirs (Sooke Lake Reservoir and the Goldstream Reservoirs) and draw down rates;
4. Stream flows and inflows into Sooke Lake Reservoir;
5. Water usage, recent consumption and trends; and customer compliance with restriction;
6. Water supply system performance.

The Regional Water Supply Commission will consider the above factors in making a determination to implement stage 2 or 3 restrictions, under the Water Conservation Bylaw.

At any time of the year and regardless of the water use restriction storage, customers are encouraged to limit discretionary water use in order to maximize the amount of water in the Regional Water Supply System Reservoirs available for nondiscretionary potable water use.

Stage 1 is normally initiated every year from May 1 to September 30 to manage outdoor use during the summer months. During this time, lawn watering is permitted twice a week at different times for even and odd numbered addresses.

Stage 2 is initiated when it is determined that there is an acute water supply shortage. During this time, lawn water is permitted once a week at different times for even and odd numbered addresses.

Stage 3 is initiated when it is determined that there is a severe water supply shortage. During this time, lawn watering is not permitted. Other outdoor water use activities are restricted as well.
