4. CHAIR'S REMARKS

The Chair remarked that:

- It's been a difficult year due to the Commission not meeting very often and with the election coming, there won't be another meeting until January.
- Commission members maybe don't get the opportunity to bring items forward for discussion, he encouraged members to think of things they are passionate about that they want to bring forward in the next term.
- He would like to see this Commission be more proactive on key issues.

5. PRESENTATIONS/DELEGATIONS

There were no presentations or delegations.

6. GENERAL MANAGER'S REPORT

6.1. Certificates of Appreciation [Verbal]

T. Robbins advised that the Capital Regional District (CRD) Board Chair is issuing certificates of appreciation to recognize the time and commitment members put into supporting Capital Regional District committees and commissions.

7. COMMISSION BUSINESS

7.1. Saanich Peninsula Water Service 2023 Capital and Operating Budget

T. Robbins provided an overview of the staff report included in the agenda package.

Staff responded to questions from the Commission regarding:

- First Nations water servicing
- Development Cost Charge funds
- Reserve fund balance
- Water demand rates
- First Nations water demand adjustment for 2023
- Agriculture Research Station water rate and Agriculture Water Rate
- Rate increases over the five years
- Municipal Finance Authority borrowing versus reserve funds

MOVED by Commissioner Doehnel, **SECONDED** by Commissioner Halldorson, The Saanich Peninsula Water Commission recommends that the Capital Regional District Board:

1. Approve the 2023 operating and capital budget;
2. Approve the 2023 Saanich Peninsula bulk water rate of \$1.1439 per cubic metre, and the Agricultural Research Station water rate of \$1.1791 per cubic metre, adjusted if necessary by any changes in the CRD Regional Water Supply wholesale water rate;
3. Direct staff to balance the 2022 actual revenue and expense on the transfer to capital reserve fund;
4. Direct staff to update carry forward balances in the 2023 Capital Budget for changes after year end; and,
5. Direct staff to amend the Bulk Water Rates Bylaw accordingly.

SOOKE LAKE RESERVOIR STORAGE SUMMARY 2022 / 2023

Sooke Lake Reservoir Storage Level

Water Supply Management Plan

FAQs

How are water restriction stages determined?

Several factors are considered when determining water use restriction stages, including,

1. Time of year and typical seasonal water demand trends;
2. Precipitation and temperature conditions and forecasts;
3. Storage levels and storage volumes of water reservoirs (Sooke Lake Reservoir and the Goldstream Reservoirs) and draw down rates;
4. Stream flows and inflows into Sooke Lake Reservoir;
5. Water usage, recent consumption and trends; and customer compliance with restriction;
6. Water supply system performance.

The Regional Water Supply Commission will consider the above factors in making a determination to implement stage 2 or 3 restrictions, under the Water Conservation Bylaw.

At any time of the year and regardless of the water use restriction storage, customers are encouraged to limit discretionary water use in order to maximize the amount of water in the Regional Water Supply System Reservoirs available for nondiscretionary potable water use.

Stage 1 is normally initiated every year from May 1 to September 30 to manage outdoor use during the summer months. During this time, lawn watering is permitted twice a week at different times for even and odd numbered addresses.

Stage 2 is initiated when it is determined that there is an acute water supply shortage. During this time, lawn water is permitted once a week at different times for even and odd numbered addresses.

Stage 3 is initiated when it is determined that there is a severe water supply shortage. During this time, lawn watering is not permitted. Other outdoor water use activities are restricted as well.
